# Team X Project Outline

## I. General Overview

- **Project Name:** Bootcamp: Student Showcase
- **Team Members:**
  - Jasmine (MMED 3040 and MMED 3039)
  - Haem (MMED 3038)
  - Rebin (Content / Images)
  - Lalaine (MMED 1058)

## II. Task Breakdown

### A. Jasmine (MMED 3040 and MMED 3090)

#### 1. **MMED 3040 - Mobile-First Website**

- Ensure the website design is mobile-first and responsive
- Implement CSS Grid Library from Level 2
- Use semantic tagging, valid HTML and CSS
- Apply responsive image strategies (picture element, source video, CSS media queries etc.)
- Collaborate with Rebin to integrate images effectively
- Collaborate with Lalaine to integrate video effectively

#### 2. **MMED 3039 - Responsive Site with JavaScript**

- Develop a responsive mobile-first website with objects and arrays for data
- Pull a list of student names and link their portfolio sites (potentially just buttons with #)
- Display testimonials from an array

- Implement a mobile-specific menu using JavaScript
- Create a GitHub repository and maintain version control

## B. Haem (MMED 3038)

### 1. **MMED 3038 - Promotional Website Design**

- Design and develop an effective promotional website that outlines the Interactive Media Design program
- Showcase student work, projects and achievements
- Incorporate interactive demos or simulations
- Display project case studies
- Create a promotional motion graphics reel
- Ensure the design is visually appealing and user-friendly
- Collaborate with Rebin for content and Lalaine for the showcase video

## C. Rebin (Content/Images)

### 1. **Content and Images**

- Collect and provide high-quality images and content for the website
- Work closely with Haem to ensure images align with the design
- Collaborate with Jasmine to integrate images responsively

## D. Lalaine (MMED 1058)

### 1. **MMED 1058 - Promotional Motion Graphics Reel**

- Create a 10-15 opening intro for the Interactive Media Design program overview
- Use animations, typography and select high-quality video to engage viewers
- Outline the program's learning outcomes
- Create content and summarize what one can expect from studying the program based on the Fanshawe Interactive Media Design program content page

### **Inspiration used:**

<https://www.youtube.com/watch?v=AF-Z4gHQ7p8>

<https://www.youtube.com/watch?v=OCZVRJ5uZxc>

### Video Checklist:

- ✓ Get video clips for all categories
- ✓ Find music
- ✓ Add all text
- ✓ Add video clips
- ✓ Animate Fanshawe logo
- ✓ Animate text question
- ✓ Readjust video clips
- ✓ Render
- ✓ Make thumbnail the second frame #t=0.2

## III. Timeline and Milestones

- Mobile-first website development (Jasmine - MMED 3040)
- Promotional Website Design (Haem - MMED 3038)
- Content and image collection (Rebin)
- Promotional Reel content, video collection and creation (Lalaine MMED 1058)
- Responsive site (Jasmine MMED 3039)
- Throughout: Continuous GitHub repository updates through Jasmine's approval (All)
- Final testing and adjustments
- Submission :)

## IV. Collaboration and Communication

- Continuous team discussions of daily tasks that need to be achieved
- Used WhatsApp as shared platform for communication
- Used email and Google Drive for file sharing
- Continuous checkups for progress report to motivate each other

## I. Quality Assurance

- Ensure that all code is well-documented and follows best practices
- Test the website on various devices and browsers for responsiveness
- Gather feedback and improvements.

Thank you and good luck to us! - Team X
